EVRIHOLDER DEBUTS NEW INNOVATIVE DESIGNS

ANAHEIM, CA, March 18, 2016 – Introducing Evriholder Products latest collection of innovative designed products. These five products are designed to enhance and simplify everyday activities.

The Dip Clip

Dip Clip is an easy and convenient way to keep your dipping sauces from saturating your entire meal. Use it with salsa, guacamole, dressings, hummus and any other dipping sauces. Simply rotate the hinge and attach to any plate or bowl! Use for entertaining by attaching to a large bowl or attach to an individual plate. **The Dip Clip** holds 3.7 oz. and comes in red and blue.

Makeup Brush Cleaning Caddy

Keep your favorite makeup brushes clean and ready to use with the **Makeup Brush Cleaning Caddy**. The removable front mat has five different textures to quickly remove all traces of makeup and bacteria from any brush type or size. Use the mat in the sink, in your hand or while attached to the caddy. The caddy attaches to any faucet to create a convenient storage caddy. The **Makeup Brush Cleaning Caddy** is available in hot pink and teal.

Sink Saver

Prevent your drains from becoming clogged with hair, debris and grime with the **Sink Saver**. No need to remove your sink stopper to install a tool to catch hair! Simply secure around your vanity sink stopper and the mini spikes catch any debris from clogging the drain. Our **Sink Saver** is offered as a two pack for easy replacement or dual vanity sinks and are available in white and grey.

Hot Dog Slicer® 2.0

The original **Hot Dog Slicer** was a hot seller and a favorite with kids and mom's so we have created the **Hot Dog Slicer 2.0** with easier cutting features and two new adorable pups. Create fun bite-size hot dog pieces in an instant with the **Hot Dog Slicer 2.0**. Simply place a standard sized hot dog in the base and push down to slice. There are no sharp blades, so it is safe for the entire family. Pour your favorite sauce or condiment into the doggy dipping bowl and enjoy!
